

How can you lower your risk of colon cancer?

Learn how you can lower your risk of colon cancer at our **FREE** seminar.

We're bringing together a team of expert physicians who will discuss the latest research, trends, and innovative new ways to reduce risk of colon cancer. Plus, we'll discuss the pros and cons of various colon cancer screening tests, including colonoscopies and the SHIELD blood test. You'll have an opportunity to ask questions and gain new perspectives from our panel of physicians.
